

Dulwich High School
of Visual Arts & Design

Year 10

ROSA

**Assessment
Information
2024**

Welcome to Year 10!

Year 10 is the first year of your senior schooling. At the successful completion this year, you will be awarded a Year 10 Record of School Achievement (RoSA). You must complete the Year 10 course requirements to receive a RoSA grade reflective of your abilities.

Dulwich High School Visual Arts and Design has developed a Year 10 curriculum that will offer students a wide range of opportunities to achieve a RoSA and prepare for Year 11 and Year 12.

The New South Wales Education Standards Authority (NESA) manages the RoSA course and Dulwich High School of Visual Arts and Design follows NESA rules for the award of the RoSA.

RoSA - a credential for school leavers

While formal RoSA credentials are for school leavers, all Year 10 students will be able to access their end of course results if they leave school before they finish their HSC. Students who leave school and satisfy eligibility requirements for the RoSA will receive the formal credential; otherwise, students will receive a Transcript of Study. Students who receive their HSC will be able to receive a RoSA at the same time as their HSC, detailing their achievement in their earlier years of study.

Curriculum requirements

Students must achieve the outcomes of courses studied to be eligible for the RoSA. To achieve these outcomes students, need to:

- Attend school regularly.
- Actively participate in all lessons showing effort and dedication.
- Complete all assessment tasks.

Year 10 assessment

Assessment is the process of identifying, gathering and interpreting information about student achievement. In the context of the RoSA, the school's internal assessment program aims to provide a cumulative measure of a student's achievement in each of their courses.

School based assessment uses a wide range of syllabus outcomes and a variety of tasks over the year to provide students with broad learning experiences and opportunities to demonstrate their knowledge and understanding in their subjects.

Assessment programs

Faculties develop an assessment program for each course. This means the teacher will:

- Identify the student tasks, which best measure, each component of the syllabus.
- Specify values to be applied to each of the tasks to maintain the relative importance of each of the components. These are the weightings included in the booklet.
- Schedule the various tasks throughout the course.
- Prepare a statement for students showing the requirements in each course before the commencement of the assessment program.

Accommodations and adjustments

If a student has a disability Dulwich High School of Visual Arts and Design will follow NESA procedures to ensure the student is able to make a fair attempt at the task. The learning support team will manage all adjustments and accommodations entitlements (special provisions) for identified students. It is the teacher's job to implement the approved accommodations and adjustments for identified students.

HSC special provisions will be managed by the learning support team acting upon NESA advice. Additional information is available at: <http://www.boardofstudies.nsw.edu.au/disability-provisions/>

Assessment task notification

Assessment advice includes: the type of task, the components and weights for each course and the week the tasks are due.

Dulwich High School of Visual Arts and Design will provide students with:

- An assessment booklet at the beginning of each year.
- Assessment notifications at least two weeks before an assessment task is due.
- Students will sign a form to show they have received the assessment task notification.

The written assessment notice contains information on the nature of the task, the weightings and course components specified, such as outcomes to be assessed from the relevant syllabus. Any changes to assessment dates will be given in writing and with a two-week notice approved by the Principal.

If a student is absent when information about an assessment task is given out, it is their responsibility to ask about the task notification information. Students have received prior information about the time an assessment task, so they know when tasks are due.

Information and advice about assessment

Students can obtain further advice about assessment tasks from:

- The class teacher.
- The Head Teacher of the faculty concerned.
- The Deputy Principal for information about the schools' procedures.
- The Learning Centre.
- The Library.
- The NESA website for information about how the RoSA assessment program must be delivered in schools.

Absence when an assessment task is notified

Whenever a student is absent from school, it is their responsibility to ensure that they find out what work has been missed and to catch up on that work. The same conditions apply if the student is absent when an assessment task is notified.

Students are not entitled to any automatic extension of time for the task.

Leave

Extended leave from school can only be granted by the Principal. Students must return an 'Application for Extended Leave' form to the Principal stating the nature and duration of the leave to be taken. Only in exceptional circumstances will leave be granted during an assessment week or when a task is due.

If leave is granted by the Principal, class teachers, Year Adviser and the Deputy Principal will be notified prior to the leave. The assessment task, in most cases, will be due on the day prior to the leave. The granting of leave and a possible concession is always at the discretion of the Principal.

If a family wishes to apply for extended leave please email the school with your leave request, our school email address is: dulwich-h.school@det.nsw.edu.au and the school will provide the family with the DoE 'Application for Extended Leave' form, this will need to be filled out and returned to the school as soon as possible.

Submission of Tasks

All hand-in tasks, major works and assessments must be given to the class teacher in the lesson at the specified time and date. If the teacher is absent on the due date, the Head Teacher of the subject will collect the assessment task.

If the class teacher is away for an in-class task the Head Teacher will plan for the task to be done at the set time.

Late submissions must follow the illness/misadventure process outlined on page 8. Tasks submitted without a satisfactory explanation will result in a mark penalty.

Note: students who do not attend school on the due date to complete a task may also be given a mark penalty.

Technology and assessment tasks

Some assessment tasks will require students to use technology while others may require tasks to be submitted in electronic form, and this will be specified when the task is set. All other tasks must be submitted in hard-copy format. It is the responsibility of the student to ensure the handing in of a task by the due date at the beginning of the period. The library printer is only available before school, recess, and lunch for student printing (not during class time).

Technology failure is NOT a valid reason for failure to submit a task on time.

To minimise problems in relation to technology, students should adhere to the following protocols:

- When working at home, continually back up all work on the hard drive of their computer and on an external storage device such as a flash drive or email.
- When working at school, save the latest version of their work to their personal file on the school server whenever possible.

Note: students should keep all notes and rough drafts of assessment tasks.

Illness or misadventure

If a student is sick, will be away from school due to misadventure or they have a significant reason why they cannot do their best in an assessment task he or she can ask for special consideration. This is called an illness or misadventure claim.

If a student requests for an extension prior to a task's due date, they must complete an extension form (available at the back of this book). Students who receive an extension must present their progress work to the class teacher to demonstrate their progress towards task completion.

If a student attempts an assessment task, the mark obtained in that task will stand until the matter is resolved. If a student does not attempt an assessment, they must contact the Head Teacher of the subject as soon as possible if they wish to be considered for an illness/misadventure claim (Please refer to the steps outlined on the following page for illness/ misadventure). An application form is available at the back of this booklet and is available from Head Teachers and the Deputy Principals.

The application form asks students to provide independent evidence of illness/ misadventure. The student must return that documentation (e.g., medical certificate) to the Head Teacher of the subject on the first day of their return to school. The Deputy Principal will determine the validity of each illness/misadventure application.

If the school accepts the illness/misadventure claim, the student through the Head Teacher of the subject must arrange a new time for an alternative task that is within two days of their return to school. Every student is expected to sit for every assessment task. Alternative tasks must be arranged as soon as possible after the student has returned to school.

Only in exceptional circumstances will a student be granted an estimate rather than completing an alternative task. In this circumstance the Deputy Principal will determine,

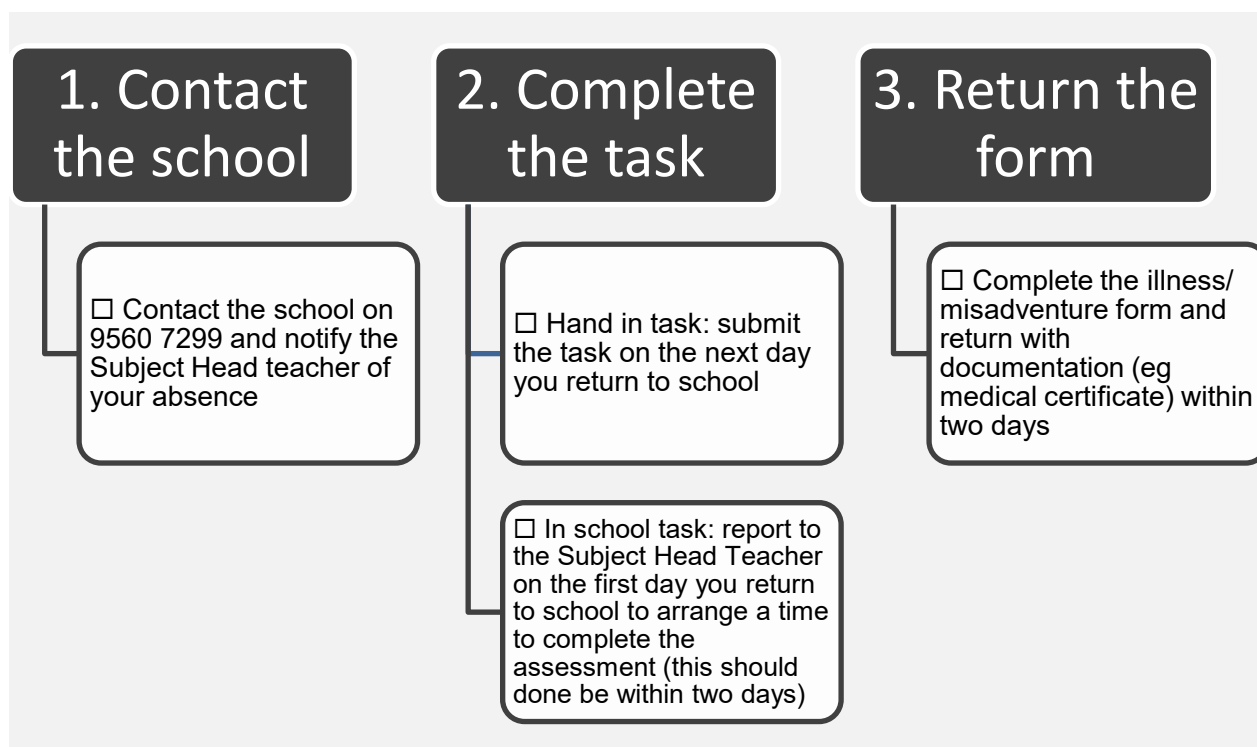

after consultation with the Head Teacher of the subject, if the student is unable to complete another appropriate task. The Head Teacher of the subject will provide a mark that supports the student's current rank in that subject.

In the case of an illness/misadventure occurring during an assessment, the student should immediately notify the Head Teacher of the subject and obtain a doctor's certificate as soon as possible after the assessment. The certificate needs to be handed to the Head Teacher of that subject on the day the student returns to school. Other appropriate documentation needs to be supplied in the case of misadventure.

Illness/misadventure protocols apply to all assessment tasks including oral presentations, vivas, exams, individual and group performances.

The Illness Misadventure Process Checklist

If you are absent due to illness/misadventure when a task is due:

Note:

- 1) It is the student's responsibility to follow these procedures and to complete all assessment tasks. The Head Teacher will retain the form and file in the subject folder for the course.
- 2) Students who do not follow these procedures and provide appropriate documentation will receive a mark penalty and may be issued with an 'N' determination course warning letter.
- 3) In some circumstances the Head Teacher will require students to complete an alternative equivalent task.
- 4) Technology failure or printer breakdown will not be accepted for late submission or absence.

'N' Determinations

Students and their parents/guardians will be notified when students are in danger of receiving an 'N' determination. Official warnings will be issued when students have not:

- a) Followed the course developed or endorsed by NESAs.
- b) Applied themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school.
- c) Achieved some or all the course outcomes.

This may include, but not be limited to:

- Making a genuine attempt at assessment tasks.
- Submitting the task on time, consequently being awarded zero.
- Non completion of class, homework, or coursework

Official warnings are issued to give students the opportunity to redeem themselves. Official warnings are course specific not task specific.

If a student is sick or has a reason for not completing the task it is their responsibility to complete an illness or misadventure form and hand it to the Head Teacher of the subject as soon as they return to school

A zero mark is awarded for a task submitted after the due date, not submitting a task at all, a non-serious attempt or plagiarism.

Note: to complete more than 50% of the course all students will complete assessment tasks even if they miss the due date without explanation.

Appeals against an assessment task grade

Students wishing to appeal against the grade(s) in any subject(s) awarded to them should submit a written appeal, together with evidence, to the Deputy Principal. To be successful in such appeals, students need to substantiate that the grade(s) awarded in the course(s) was inconsistent with the assessment procedures from the school.

The school review panel will consist of the Deputy Principal, the Head Teacher concerned and the Year Adviser. The Year Adviser will act as student advocate.

Please note contesting the marks awarded by the teacher for assessment tasks will not be subject to review.

Where students are appealing their final grade and the appeal for a ROSA grade is upheld, the deputy principal will send notification of the new grade(s) to NESA. Where possible, all reviews of the grade(s) awarded in any subject will be resolved within the school.

However, provision has been made for subsequent appeals to the principal and then NESA. For additional reference see: <https://ace.nesa.nsw.edu.au/appeals>

Malpractice

Malpractice is dishonest behaviour carried out for the purpose of gaining unfair advantage. It includes:

- Plagiarism is 'the wrongful attempt to pass off another's work as one's own' or 'the act of copying without permission or acknowledgement.'
- Cheating is deliberately copying someone else's work and claiming it as one's own
- Giving work to other people to copy and claim as their own is also malpractice.

Proven plagiarism or cheating may incur the following penalties when any student:

- Deliberately plagiarises someone else's work, the student/s may receive a mark of zero for the assessment task.
- Cheats in an examination or in any other assessment situation, may receive a mark of zero.
- Gives their work from an assessment task or knowingly allows their work to be copied, may receive a mark of zero.

Any student who feels that he/she has been wrongly accused of plagiarism or cheating may appeal against the zero-assessment allocated by writing a full account to the Deputy Principal, who will decide on the merits of the appeal.

Students who attempt to gain unfair advantage over other students by actions such as plagiarism or cheating, or who abet such activities will be subject to disciplinary action. This may take the form of:

- A written reprimand, providing the student does not gain any unfair advantage.
- Making alternative arrangements for assessment.
- Cancellation of the result in the component of the assessment concerned.

Any action taken will relate only to the assessment item concerned.

The penalty will be determined the Deputy Principal in consultation with the Head Teacher of the subject. The Year Adviser and Principal will be informed of the offence and the action taken. The parent/caregiver of the student must also be advised, and the incident entered into the student's record on Sentral.

Subsequent or more serious breaches of discipline such as an attempt to gain access to, or alter, computer records of student assessments, may lead to:

- Cancellation of the total assessment in the unit or course concerned.
- Cancellation of all the candidate's results for a period of study, with that period being determined by the school.

All instances of alleged malpractice will be reported to the Deputy Principal. Where the Deputy Principal is satisfied there is clear evidence of malpractice, the award of zero (0) will be recorded for the assessment task. The outcome in such cases will be conveyed in writing to parents and the students will be issued a warning letter.

Use of AI Technologies for Assessment

The use of AI software such as ChatGPT is a form of academic malpractice and severely limits students' personal engagement with course content and mastery of subject-specific skills.

Students that are found using AI technologies will receive a Curriculum Concern warning for the piece of work in question which also means they will receive a mark of 0 for that task.

Stage 5 Assessment Calendar

Task Weighting %	30	30	40	

Commerce Course Outcomes

A Student:

- COM5-1 applies consumer, financial, economic, business, legal, political and employment concepts and terminology in a variety of contexts.
- COM5-2 analyses the rights and responsibilities of individuals in a range of consumer, financial, economic, business, legal, political and employment contexts.
- COM5-3 examines the role of law in society.
- COM5-4 analyses key factors affecting decisions.
- COM5-5 evaluates options for solving problems and issues.
- COM5-6 develops and implements plans designed to achieve goals.
- COM5-7 researches and assesses information using a variety of sources.
- COM5-8 explains information using a variety of forms.
- COM5-9 works independently and collaboratively to meet individual and collective goals within specified timelines.

Design and Technology

Task Weighting %	30	40	30	

Design and Technology Course Outcomes

A Student:

- DT5-1 analyses and applies a range of design concepts and processes.
- DT5-2 applies and justifies an appropriate process of design when developing design ideas and solutions.
- DT5-3 evaluates and explains the impact of past, current, and emerging technologies on the individual, society, and environments.
- DT5-4 analyses the work and responsibilities of designers and the factors affecting their work.
- DT5-5 evaluates designed solutions that consider preferred futures, the principles of appropriate technology and ethical and responsible design.
- DT5-6 develops and evaluates innovative, enterprising, and creative design ideas and solutions.
- DT5-7 uses appropriate techniques when communicating design ideas and solutions to a range of audiences.
- DT5-8 selects and applies management strategies when developing design solutions.
- DT5-9 applies risk management practices and works safely in developing quality design solutions.
- DT5-10 selects and uses a range of technologies competently in the development and management of quality design solutions.

Drama

Task Weighting %	25	25	25	25	

Drama Course Outcomes

A Student:

- 5.1.1 manipulates the elements of drama to create belief, clarity and tension in character, role, situation, and action.
- 5.1.2 contributes, selects, develops, and structures ideas in improvisation and play building.
- 5.1.3 devises, interprets, and enacts drama using scripted and unscripted material or text.
- 5.1.4 explores, structures, and refines ideas using dramatic forms, performance styles, dramatic techniques, theatrical conventions, and technologies.
- 5.2.1 applies acting and performance techniques expressively and collaboratively to communicate dramatic meaning.
- 5.2.2 selects and uses performance spaces, theatre conventions and production elements appropriate to purpose and audience.
- 5.2.3 employs a variety of dramatic forms, performance styles, dramatic techniques, theatrical conventions, and technologies to create dramatic meaning.
- 5.3.1 responds to, reflects on, and evaluates elements of drama, dramatic forms, performance styles, dramatic techniques, and theatrical conventions.
- 5.3.2 analyses the contemporary and historical contexts of drama.
- 5.3.3 analyses and evaluates the contribution of individuals and groups to processes and performances in drama using relevant drama concepts and terminology.

Task Weighting %	25	25	25	25	100

English Course Outcomes

A Student:

- EN5-RVL-01 uses a range of personal, creative, and critical strategies to interpret complex texts.
- EN5-URA-01 analyses how meaning is created through the use and interpretation of increasingly complex language forms, features and structures.
- EN5-URB-01 evaluates how texts represent ideas and experiences, and how they can affirm or challenge values and attitudes.
- EN5-URC-01 investigates and explains ways of valuing texts and the relationships between them.
- EN5-ECA-01 crafts personal, creative, and critical texts for a range of audiences by experimenting with and controlling language forms and features to shape meaning.
- EN5-ECB-01 uses processes of planning, monitoring, revising, and reflecting to purposefully develop and refine composition of texts.

Food Technology

Task Weighting %	40	40	20	

Food Technology Course Outcomes

A Student:

- FT5-1 demonstrates hygienic handling of food to ensure a safe and appealing product.
- FT5-2 identifies, assesses, and manages the risks of injury and OHS issues associated with the handling of food.
- FT5-3 describes the physical and chemical properties of a variety of foods.
- FT5-4 accounts for changes to the properties of food which occur during food preparation and storage.
- FT5-5 applies appropriate methods of food processing, preparation, and storage.
- FT5-6 describes the relationship between food consumption, the nutritional value of foods and the health of individuals and communities.
- FT5-7 justifies food choices by analysing the factors that influence eating habits.
- FT5-8 collects, evaluates, and applies information from a variety of sources.
- FT5-9 communicates ideas and information using a range of media and appropriate terminology.
- FT5-10 selects and uses appropriate techniques and equipment for a variety of food-specific purposes.
- FT5-11 plans, prepares, presents, and evaluates food solutions for specific purposes.
- FT5-12 examines the relationship between food, technology, and society.
- FT5-13 evaluates the impact of activities related to food on the individual, society, and the environment.

HSIE: History, Semester 1

Component	Task 1	Task 2	Weighting %

Task Weighting %	50	50	100

History Course Outcomes

A Student:

- HT5-1 explains and assesses the historical forces and factors that shaped the modern world and Australia.
- HT5-2 sequences and explain significant patterns of continuity and change in the development of the modern world and Australia.
- HT5-3 explains and analyses the motives and actions of past individuals and groups in the historical contexts that shaped the modern world and Australia.
- HT5-4 explains and analyses the causes and effects of events and developments in the modern world and Australia.
- HT5-5 Identifies and evaluates the usefulness of sources in the historical inquiry process.
- HT5-6 uses relevant evidence from sources to support historical narratives, explanations and analyses of the modern world and Australia.
- HT5-7 explains different contexts, perspectives and interpretations of the modern world and Australia
- HT5-8 selects and analyses a range of historical sources to locate information relevant to an historical inquiry.
- HT5-9 applies a range of relevant historical terms and concepts when communicating an understanding of the past.
- HT5-10 selects and uses appropriate oral, written, visual and digital forms to communicate effectively about the past for different audiences.

HSIE: Geography, Semester 2

Component	Task 1	Task 2	Weighting %
Timing	Term 3, Week 8	Term 4, Week 3

Task Weighting %	50	50	100

Geography Course Outcomes

A Student:

- GE5-1 explains the diverse features and characteristics of a range of places and environments.
- GE5-2 explains processes and influences that form and transform places and environments.
- GE5-3 analyses the effect of interactions and connections between people, places and environments.
- GE5-4 accounts for perspectives of people and organisations on a range of geographical issues.
- GE5-5 assesses management strategies for places and environments for their sustainability.
- GE5-6 analyses differences in human wellbeing and ways to improve human wellbeing.
- GE5-7 acquires and processes geographical information by selecting and using appropriate and relevant geographical tools for inquiry.
- GE5-8 communicates geographical information to a range of audiences using a variety of strategies.

Industrial Technology - Timber

Component	Task 1	Task 2	Task 3	Weighting %
Timing	Term 2, Week 4	Term 3, Week 2	Term 4, Week 3	
Nature of Task	<p>Project 1 Bread Box</p> <p><input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Research Project / Project 2 Sustainable and Emerging Technologies</p> <p><input checked="" type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Examination Shaker Side Table</p> <p><input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	
Outcomes	IND5-1 IND5-3, IND5-5, IND5-8	IND5-6, IND5-9, IND5-10	IND5-3, IND5-4, IND5-8, IND5-9, IND5-10	
Task Weighting %	35	25	40	100

Industrial Technology Timber Course Outcomes

A Student:

- IND5-1 identifies, assesses, applies, and manages the risks and WHS issues associated with the use of a range of tools, equipment, materials, processes, and technologies.
- IND5-2 applies design principles in the modification, development, and production of projects.
- IND5-3 identifies, selects, and uses a range of hand and machine tools, equipment, and processes to produce quality practical projects.
- IND5-4 selects, justifies, and uses a range of relevant and associated materials for specific applications.
- IND5-5 selects, interprets, and applies a range of suitable communication techniques in the development, planning, production and presentation of ideas and projects.
- IND5-6 identifies and participates in collaborative work practices in the learning environment.
- IND5-7 applies and transfers skills, processes, and materials to a variety of contexts and projects.
- IND5-8 evaluates products in terms of functional, economic, aesthetic, and environmental qualities and qualities of construction.
- IND5-9 describes, analyses, and uses a range of current, new, and emerging technologies and their various applications.
- IND5-10 describes, analyses, and evaluates the impact of technology on society, the environment, and cultural issues locally and globally.

Japanese

Component	Task 1	Task 2	Task 3	Weighting %
Timing	Term 1, Week 10	Term 2, Week 10	Term 3, Week 10

Outcomes	ML5-CRT-01	ML5-UND-01	ML5-INT-01	
Task Weighting %	30	30	40	100

Japanese Course Outcomes

A Student:

- ML5-INT-01 exchanges information, ideas, and perspectives in a range of contexts by manipulating culturally appropriate language.
- ML5-UND-01 analyses and responds to information, ideas, and perspectives in a range of texts to demonstrate understanding.
- ML5-CRT-01 creates a range of texts for diverse communicative purposes by manipulating culturally appropriate language.

Outcomes	MA5.1-1WM, MA5.1-2WM, MA5.1-3WM, MA4-8NA, MA4-10NA, MA5.1-12SP	MA5.1-1WM, MA5.1-2WM, MA5.1-3WM, MA5.1-6NA, MA5.1-10MG	MA5.1-1WM, MA5.1-2WM, MA5.1-3WM, MA5.1-8MG, MA4-10NA, MA5.1-4NA	MA5.1-1WM, MA5.1-2WM, MA5.1-3WM, MA4-8NA, MA4-10NA, MA5.1-4NA, MA5.1-6NA, MA5.1-7NA, MA5.1-8MG, MA5.1-10MG, MA5.1-11MG, MA5.1-12SP	
Task Weighting %	30	20	25	25	100

Note: Students studying the 5.1 course may also attempt 5.2 and 5.3 assessments

Note: According to NESAs, students studying the 5.1 course are continuing to work towards achieving Stage 4 outcomes as well as achieving 5.1 outcomes

Mathematics 5.1 Course Outcomes

A Student:

MA5.1-1WM	uses appropriate terminology, diagrams, and symbols in mathematical contexts.
MA5.1-2WM	selects and uses appropriate strategies to solve problems.
MA5.1-3WM	provides reasoning to support conclusions that are appropriate to the context.
MA5.1-4NA	solves financial problems involving earning, spending, and investing money.
MA5.1-5NA	operates with algebraic expressions involving positive-integer and zero indices and establishes the meaning of negative indices for numerical bases.
MA5.1-6NA	determines the midpoint, gradient and length of an interval and graphs linear relationships.
MA5.1-7NA	graphs simple non-linear relationships.
MA5.1-8MG	calculates the areas of composite shapes and the surface areas of rectangular and triangular prisms.
MA5.1-9MG	interprets very small and very large units of measurement, uses scientific notation, and rounds to significant figures.
MA5.1-10MG	applies trigonometry, given diagrams, to solve problems, including problems involving angles of elevation and depression.
MA5.1-11MG	describes and applies the properties of similar figures and scale drawings.
MA5.1-12SP	uses statistical displays to compare sets of data and evaluates statistical claims made in the media.
MA5.1-13SP	calculates relative frequencies to estimate probabilities of simple and compound events.

Mathematics 5.2

Component	Task 1	Task 2	Task 3	Task 4	Weighting %
Timing	Term 2, Week 2	Term 2, Week 9	Term 3, Week 7	Term 4, Week 3

Outcomes	MA5.2-1WM, MA5.2-2WM, MA5.2-3WM, MA5.2-6NA, MA5.2-8NA, MA5.2-15SP, MA5.2-16SP	MA5.2-1WM, MA5.2-2WM, MA5.2-3WM, MA5.2-9NA, MA5.2-13MG	MA5.2-1WM, MA5.2-2WM, MA5.2-3WM, MA5.2-11MG, MA5.2-12MG, MA5.2-8NA, MA5.2-4NA	MA5.2-1WM, MA5.2-2WM, MA5.2-3WM, MA5.2-4NA, MA5.2-6NA, MA5.2-8NA, MA5.2-9NA, MA5.2-10NA, MA5.2-11MG, MA5.2-12MG, MA5.2-13MG, MA5.2-14MG, MA5.2-15SP, MA5.2-16SP	
Task Weighting %	30	20	25	25	100

Note: Mathematics 5.2 Assessments includes Mathematics 5.1 content and may attempt 5.3 content

Mathematics 5.2 Course Outcomes

A Student:

- MA5.2-1WM selects appropriate notations and conventions to communicate mathematical ideas and solutions.
- MA5.2-2WM interprets mathematical or real-life situations, systematically applying appropriate strategies to solve problems.
- MA5.2-3WM constructs arguments to prove and justify results.
- MA5.2-4NA solves financial problems involving compound interest.
- MA5.2-5NA recognises direct and indirect proportion and solves problems involving direct proportion.
- MA5.2-6NA simplifies algebraic fractions and expands and factorises quadratic expressions.
- MA5.2-7NA applies index laws to operate with algebraic expressions involving integer indices.
- MA5.2-8NA solves linear and simple quadratic equations, linear inequalities and linear simultaneous equations using analytical and graphical techniques.
- MA5.2-9NA uses the gradient-intercept form to interpret and graph linear relationships.
- MA5.2-10NA connects algebraic and graphical representations of simple non-linear relationships.
- MA5.2-11MG calculates the surface areas of right prisms, cylinders, and related composite solids.
- MA5.2-12SP uses quartiles and box plots to compare sets of data and evaluates sources of data.
- MA5.2-16SP investigates relationships between two statistical variables, including their relationship over time.
- MA5.2-13MG applies trigonometry to solve problems, including problems involving bearings.
- MA5.2-14MG calculates the angle sum of any polygon and uses minimum conditions to prove triangles are congruent or similar.

Mathematics 5.3

Component	Task 1	Task 2	Task 3	Task 4	Weighting %
Timing	Term 2, Week 2	Term 2, Week 9	Term 3, Week 7	Term 4, Week 3

Outcomes	MA5.3-1WM, MA5.3-2WM, MA5.3-3WM, MA5.3-5NA, MA5.3-7NA, MA5.3-18SP, MA5.3-19SP	MA5.3-1WM, MA5.3-2WM, MA5.3-3WM, MA5.3-8NA, MA5.3-15MG	MA5.3-1WM, MA5.3-2WM, MA5.3-3WM, MA5.3-13MG, MA5.3-14MG, MA5.3-7NA, MA5.3-11NA	MA5.3-1WM, MA5.3-2WM, MA5.3-3WM, MA5.3-5NA, MA5.3-7NA, MA5.3-8NA, MA5.3-9NA, MA5.3-11NA, MA5.3-13MG, MA5.3-14MG, MA5.3-15MG, MA5.3-16MG, MA5.3-18SP, MA5.3-19SP	
Task Weighting %	30	20	25	25	100

Note: Mathematics 5.3 Assessments includes Mathematics 5.2 and 5.1 content

Mathematics 5.3 Course Outcomes

A Student:

- MA5.3-1WM uses and interprets formal definitions and generalisations when explaining solutions and/or conjectures.
- MA5.3-2WM generalises mathematical ideas and techniques to analyse and solve problems efficiently.
- MA5.3-3WM uses deductive reasoning in presenting arguments and formal proofs.
- MA5.3-4NA draws, interprets, and analyses graphs of physical phenomena.
- MA5.3-5NA selects and applies appropriate algebraic techniques to operate with algebraic expressions.
- MA5.3-6NA performs operations with surds and indices.
- MA5.3-7NA solves complex linear, quadratic, simple cubic and simultaneous equations and rearrange literal equations.
- MA5.3-8NA uses formulas to find midpoint, gradient and distance on the Cartesian plan and applies standard forms of the equation of a straight line.
- MA5.3-9NA sketches and interprets a variety of non-linear relationships.
- MA5.3-10N recognises, describes, and sketches polynomials and applies the factor and remainder theorems to solve problems.
- MA5.3-11NA uses the definition of a logarithm to establish and apply the law of logarithms.
- MA5.3-12NA uses function notation to describe and sketch functions.
- MA5.3-13MG applies formulas to find the surface areas of right pyramids, right cones spheres and related composite solids.
- MA5.3-14MG applies formulas to find the volumes of right pyramids, right cones spheres and related composite solids.
- MA5.3-15MG applies Pythagoras' theorem, trigonometric relationships, the sine rule, the cosine rule, and the area rule to solve problems, including solving problems involving three dimensions.
- MA5.3-16MG proves triangles are similar and uses formal geometric reasoning to establish the properties of triangles and quadrilaterals.
- MA5.3-17MG applies deductive reasoning to prove circle theorems and to solve related problems.
- MA5.3-18SP uses standard deviation to analyse data.
- MA5.3-19SP investigates the relationship between numerical variables using lines of best fit and explores how data is used to inform decision making processes.

Music

Component	Task 1	Task 2	Weighting %
Timing	Term 2, Week 3	Term 4, Week 3	
Nature of Task	<p>Song Writing Task Australian Music</p> <p><input checked="" type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Film Music Composition PBL Task Music for Radio, Film, Television and Multimedia</p> <p><input checked="" type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	
Outcomes	5.2, 5.5, 5.9	5.6, 5.7, 5.10	
Task Weighting %	50	50	

Music Course Outcomes

A Student:

- 5.1 performs repertoire with increasing levels of complexity in a range of musical styles demonstrating an understanding of the musical concepts.
- 5.2 performs repertoire in a range of styles and genres demonstration interpretation of musical notation and the application of different types of technology.
- 5.3 performs music selected for study with appropriate stylistic features demonstrating solo and ensemble awareness.
- 5.4 demonstrates an understanding of the musical concepts through improvising, arranging, and composing in the styles of music selected for study.
- 5.5 notates own compositions applying forms of notation appropriate to the music selected for study.
- 5.6 uses different forms of technology in the composition process.
- 5.7 demonstrates an understanding of musical concepts through the analysis, comparison, and critical discussion of music from different stylistic, social, cultural, and historical contexts.
- 5.8 demonstrates an understanding of musical literacy through aural identification, discrimination, memorisation, and notation in the music selected for study.
- 5.9 demonstrates an understanding of musical literacy through the appropriate application of notation, terminology and the interpretation and analysis of scores used in the music selected for study.
- 5.10 demonstrates an understanding of the influence and impact of technology on music.

Personal Development, Health, and Physical Education

Component	Task 1	Task 2	Task 3	Task 4	Weighting %
Timing	Term 1, Week 9	Term 2, Week 9	Term 3, Week 8/9	Term 4, Week 3

Task Weighting %	25	25	25	25	100

Personal Development, Health, and Physical Education Course Outcomes

A Student:

- PD5-1 assesses their own and others' capacity to reflect on and respond positively to challenges.
- PD5-2 researches and appraises the effectiveness of health information and support services available in the community.
- PD5-3 analyses factors and strategies that enhance inclusivity, equality, and respectful relationships.
- PD5-4 adapts and improvises movement skills to perform creative movement across a range of dynamic physical activity contexts.
- PD5-5 appraises and justifies choices of actions when solving complex movement challenges.
- PD5-6 critiques contextual factors, attitudes, and behaviours to effectively promote health, safety, wellbeing, and participation in physical activity.
- PD5-7 plans, implements, and critiques strategies to promote health, safety, wellbeing, and participation in physical activity in their communities.
- PD5-8 designs, implements, and evaluates personalised plans to enhance health and participation in a lifetime of physical activity.
- PD5-9 assesses and applies self-management skills to effectively manage complex situations.
- PD9-10 critiques their ability to enact interpersonal skills to build and maintain respectful and inclusive relationships in a variety of groups or contexts.
- PD5-11 refines and applies movement skills and concepts to compose and perform innovative movement sequences.

Physical Activity and Sports Studies

Component	Task 1	Task 2	Task 3	Weighting %

Task Weighting %	30	35	35	100

Physical Activity and Sports Studies Course Outcomes

A Student:

- PASS5-1 discusses factors that limit and enhance the capacity to move and perform.
- PASS5-2 analyses the benefits of participation and performance in physical activity and sport.
- PASS5-3 discusses the nature and impact of historical and contemporary issues in physical activity and sport.
- PASS5-4 analyses physical activity and sport from personal, social, and cultural perspectives.
- PASS5-5 demonstrates actions and strategies that contribute to active participation and skilful performance.
- PASS5-6 evaluates the characteristics of participation and quality performance in physical activity and sport.
- PASS5-7 works collaboratively with others to enhance participation, enjoyment, and performance.
- PASS5-8 displays management and planning skills to achieve personal and group goals.
- PASS5-9 performs movement skills with increasing proficiency.
- PASS5-10 analyses and appraises information, opinions, and observations to inform physical activity and sport decisions.

Photographic and Digital Media

Component	Task 1	Task 2	Task 3	Weighting %
Timing	Term 2, Week 2	Term 3, Week 3	Term 4, Week 2	
Nature of Task	Practical Task Poetry of Place <input checked="" type="checkbox"/> Home Task <input type="checkbox"/> School Task	Practical Task Video Production <input checked="" type="checkbox"/> Home Task <input type="checkbox"/> School Task	Writing Task Written Examination <input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task	
Outcomes	5.2, 5.4, 5.6	5.1, 5.3, 5.5	5.7, 5.8, 5.9	
Task Weighting %	30	30	40	

Photography and Digital Media Course Outcomes

A Student:

- 5.1 develops range and autonomy in selecting and applying photographic and digital conventions and procedures to make photographic and digital works.
- 5.2 makes photographic and digital works informed by their understanding of the function of and relationships between artist–artwork–world–audience.
- 5.3 makes photographic and digital works informed by an understanding of how the frames affect meaning.
- 5.4 investigates the world as a source of ideas, concepts, and subject matter for photographic and digital works.
- 5.5 makes informed choices to develop and extend concepts and different meanings in their photographic and digital works.
- 5.6 selects appropriate procedures and techniques to make and refine photographic and digital works.
- 5.7 applies their understanding of aspects of practice to critically and historically interpret photographic and digital works.
- 5.8 uses their understanding of the function of and relationships between artist – artwork – world – audience in critical and historical interpretations of photographic and digital works.
- 5.9 uses the frames to make different interpretations of photographic and digital works.
- 5.10 constructs different critical and historical accounts of photographic and digital works.

Science

Component	Task 1	Task 2	Task 3	Weighting %
Timing	Term 2, Week 4	Term 3, Week 8	Term 4, Week 3	
Nature of Task	<p>Semester 1 Exam Immunity and Disease Chemistry, Genetics</p> <p><input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Student Research Project All Topics Available</p> <p><input checked="" type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Semester 2 Exam Forces, Energy and Motion, Evolution</p> <p><input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	
Outcomes	SC5 - 7WS, SC5-14LW, SC5-15LW, SC5-16CW, SC5 - 17CW	SC5 - 4WS, SC5 - 5WS, SC5 - 6WS, SC5 - 7WS, SC5 - 9WS	SC5 - 7WS, SC5 - 10PW SC5 - 11PW, SC5-14LW, SC5 - 15LW	
Task Weighting %	30	40	30	100

Science Course Outcomes

A Student:

- SC5-4WS develops questions or hypotheses to be investigated scientifically.
- SC5-5WS produces a plan to investigate identified questions, hypotheses, or problems, individually and collaboratively.
- SC5-6WS undertakes first-hand investigations to collect valid and reliable data and information, individually and collaboratively.
- SC5-7WS processes, analyses, and evaluates data from first-hand investigations and secondary sources to develop evidence-based arguments and conclusions.
- SC5-8WS applies scientific understanding and critical thinking skills to suggest possible solutions to identified problems.
- SC5-9WS presents science ideas and evidence for a particular purpose and to a specific audience, using appropriate scientific language, conventions, and representations.
- SC5-10PW applies models, theories, and laws to explain situations involving energy, force and motion.
- SC5-11PW explains how scientific understanding about energy conservation, transfers and transformations is applied in systems.
- SC5-12ES describes changing ideas about the structure of the Earth and the universe to illustrate how models, theories and laws are refined over time by the scientific community.
- SC5-13ES explains how scientific knowledge about global patterns of geological activity and interactions involving global systems can be used to inform decisions related to contemporary issues.
- SC5-14LW analyses interactions between components and processes within biological systems.
- SC5-15LW explains how biological understanding has advanced through scientific discoveries, technological developments, and the needs of society.
- SC5-16CW explains how models, theories and laws about matter have been refined as new scientific evidence becomes available.
- SC5-17CW discusses the importance of chemical reactions in the production of a range of substances, and the influence of society on the development of new materials.

Textiles Technologies

Component	Task 1	Task 2	Task 3	Weighting %
Timing	Term 2, Week 4	Term 3, Week 10	Term 4, Week 3	
Nature of Task	Design Project 1 Costume <input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task	Design Project 2 Self-Directed Project <input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task	End of Course Examination Properties & Performance <input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task	
Outcomes	TEX5-4, TEX5-5, TEX5-8, TEX5-9, TEX5-11	TEX5-1, TEX5-2, TEX5-4, TEX5-6, TEX5-12	TEX5-3, TEX5-6, TEX5-7	
Task Weighting %	40	40	20	100

Textiles Technologies Outcomes

A Student:

- TEX5-1 explains the properties and performance of a range of textile items.
- TEX5-2 justifies the selection of textile materials for specific end uses.
- TEX5-3 explains the creative process of design used in the work of textile designers.
- TEX5-4 generates and develops textile design ideas.
- TEX5-5 investigates and applies methods of colouration and decoration for a range of textile items.
- TEX5-6 analyses the influence of historical, cultural, and contemporary perspectives on textile design, construction, and use.
- TEX5-7 evaluates the impact of textiles production and use on the individual consumer and society.
- TEX5-8 selects and uses appropriate technology to creatively document, communicate and present design and project work.
- TEX5-9 critically selects and creatively manipulates a range of textile materials to produce quality textile items.
- TEX5-10 selects appropriate techniques and uses equipment safely in the production of quality textile projects.
- TEX5-11 demonstrates competence in the production of textile projects to completion.
- TEX5-12 evaluates textile items to determine quality in their design and construction.

Visual Arts

Component	Task 1	Task 2	Task 3	Weighting %
Timing	Term 2, Week 2	Term 3, Week 8	Term 4, Week 3	
Nature of Task	<p>Artmaking ISMs</p> <p><input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Artmaking Architectural Forms</p> <p><input checked="" type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Art History and Criticism Examination</p> <p><input checked="" type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	
Outcomes	5.2, 5.5, 5.6	5.1, 5.3, 5.4	5.7, 5.8, 5.9, 5.10	
Task Weighting %	30	30	40	

Visual Arts Course Outcomes

A Student:

- 5.1 uses a range of strategies to explore different art making conventions and procedures to make artworks.
- 5.2 explores the function and relationships between artist-artwork-world-audience.
- 5.3 makes artworks that involve some understanding of the frames.
- 5.4 recognises and uses aspects of the world as a source of ideas, concepts, and subject matter in the visual arts.
- 5.5 investigates ways to develop meaning in their artworks.
- 5.6 selects different materials and techniques to make artworks.
- 5.7 explores aspects of practice in critical and historical interpretations of art.
- 5.8 explores the function of and relationships between artist-artwork-world-audience.
- 5.9 begins to acknowledge that art can be interpreted from different points of view.
- 5.10 recognises that art criticism and art history construct meaning.

Visual Design

Component	Task 1	Task 2	Task 3	Weighting %
Timing	Term 1, Week 6	Term 3, Week 2	Term 4, Week 3	
Nature of Task	<p>Art History And Criticism Type</p> <p><input checked="" type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Artmaking Design for Place</p> <p><input checked="" type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Artmaking Text and Illustration</p> <p><input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	
Outcomes	5.9, 5.10	5.2, 5.3, 5.5	5.1, 5.4, 5.5	
Task Weighting %	30	30	40	

Visual Design Course Outcomes

A Student:

- 5.1 develops autonomy in selecting & applying visual design conventions and procedures to make visual design artworks.
- 5.2 makes visual design artworks informed by their understanding of the function of the relationships between artist – world – audience.
- 5.3 makes visual design artworks informed by an understanding of how the frames affect meaning.
- 5.4 investigates and responds to the world as a source of ideas, concepts and subject matter for visual design artworks.
- 5.5 makes informed choices to develop & extend concepts & different meanings in their visual design artworks.
- 5.6 selects appropriate procedures & techniques to make and refine visual design artworks.
- 5.7 applies their understanding of aspects of practice to critically and historically interpret visual design artworks.
- 5.8 uses their understanding of the function of and relationships between artist-artwork-work-audience in critical and historical interpretations of visual design artworks.
- 5.9 uses the frames to make different interpretations of visual design artworks.
- 5.10 constructs different critical and historical accounts of visual design artworks.

Year 10

New Educational

Opportunities (NEO)

Assessment Program

2024

NEO: Cartooning and Animation

Component	Task 1	Task 2	Task 3	Weighting %
Timing	Term 2, Week 3	Term 2, Week 10	Term 4, Week 1	
Nature of Task	Artmaking Static <input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task	Art History and Criticism Practice <input checked="" type="checkbox"/> Home Task <input type="checkbox"/> School Task	Artmaking Collaborative <input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task	
Outcomes	N0CA1, N0CA3	N0CA2, N0CA4	N0CA1, N0CA5	
Task Weighting %	30	40	30	

Course Outcomes

A Student:

- N0CA1 uses a range of strategies to explore different cartooning conventions and procedures to make zines and cartoons.
- N0CA2 recognises and uses aspects of the world as a source of ideas, concepts, and subject matter in making zines or cartoons.
- N0CA3 selects different materials and techniques to make zines and cartoons.
- N0CA4 explores aspects of practice in critical and historical interpretations of cartooning.
- N0CA5 demonstrates creative thinking and resolution on an individual or small collaboration project.

NEO: Ceramics

Component	Task 1	Task 2	Task 3	Weighting %
Timing	Term 1, Week 8	Term 2, Week 10	Term 4, Week 2	
Nature of Task	Artmaking Fundamentals <input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task	Art History and Criticism Contemporary Traditional <input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task	Artmaking Handbuilding <input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task	
Outcomes	NCER1, NCER4	NCER2, NCER4	NCER3, NCER5	
Task Weighting %	30	30	40	

Course Outcomes

A Student:

- NCER1 engage in the development of different techniques and aesthetic considerations suited to artistic intentions in the making of ceramic works.
- NCER2 explore ways of generating ideas as representations in the making of ceramic works.
- NCER3 develop entrepreneurial skills to identify problem or opportunity, plan and produce a product for an authentic purpose or even.
- NCER4 utilises a variety of hand-building techniques to create ceramic works.
- NCER5 Utilises a variety of decorating techniques to enhance aesthetic qualities of ceramic work.

NEO: Creative Writing

Component	Task 1	Task 2	Weighting %
Timing	Term 1, Week 10	Term 3, Week 9	
Nature of Task	<p>Creative Nonfiction Creative Nonfiction</p> <p><input checked="" type="checkbox"/> Home Task <input type="checkbox"/> School Task</p>	<p>Imagining Worlds The Short Story</p> <p><input checked="" type="checkbox"/> Home Task <input type="checkbox"/> School Task</p>	
Outcomes	EN5-RVL-01, EN5-URA-01, EN5-URB-01, EN5-URC-01, EN5-ECA-01, EN5-ECB-01	EN5-RVL-01, EN5-URA-01, EN5-URB-01, EN5-URC-01, EN5-ECA-01, EN5-ECB-01	
Task Weighting %	50	50	100

Course Outcomes

A Student:

- EN5-RVL-01 uses a range of personal, creative, and critical strategies to interpret complex texts.
- EN5-URA-01 analyses how meaning is created through the use and interpretation of increasingly complex language forms, features and structures.
- EN5-URB-01 evaluates how texts represent ideas and experiences, and how they can affirm or challenge values and attitudes.
- EN5-URC-01 investigates and explains ways of valuing texts and the relationships between them.
- EN5-ECA-01 crafts personal, creative, and critical texts for a range of audiences by experimenting with and controlling language forms and features to shape meaning.
- EN5-ECB-01 uses processes of planning, monitoring, revising, and reflecting to purposefully develop and refine composition of texts.

NEO: Debating and Rhetoric

Component	Task 1	Task 2	Weighting %
Timing	Term 1, Week 10	Term 3, Week 9	
Nature of Task	<p>Persuasive Speech Introduction to Rhetoric and Oratory</p> <p><input checked="" type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Debate and Reflection The Art of Debating; Arguments and Fallacies</p> <p><input checked="" type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	
Outcomes	EN5-RVL-01, EN5-URA-01, EN5-URB-01, EN5-URC-01, EN5-ECA-01, EN5-ECB-01	EN5-RVL-01, EN5-URA-01, EN5-URB-01, EN5-URC-01, EN5-ECA-01, EN5-ECB-01	
Task Weighting %	50	50	100

Course Outcomes

A Student:

- EN5-RVL-01 uses a range of personal, creative, and critical strategies to interpret complex texts.
- EN5-URA-01 analyses how meaning is created through the use and interpretation of increasingly complex language forms, features and structures.
- EN5-URB-01 evaluates how texts represent ideas and experiences, and how they can affirm or challenge values and attitudes.
- EN5-URC-01 investigates and explains ways of valuing texts and the relationships between them.

NEO: Games and Sports

Component	Task 1	Task 2	Weighting %
Timing	Term 1, Week 10	Term 3, Week 10	
Nature of Task	<p>Organisation and Execution of Assigned Skill Drill Instruction in Games and Sport</p> <p><input checked="" type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Group Development of New Game/Sport Games and Sports Applications 1</p> <p><input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	
Outcomes	NGS1, NGS2	NEO1, NEO2	
Task Weighting %	50	50	100

Course Outcomes

A Student:

- NGS1 develop skills and knowledge in a range of games and sports.
- NGS2 analyse the range of roles and responsibilities in the organisation of games and sports.
- NEO1 develop entrepreneurial skills to identify problem or opportunity, plan and produce a product for an authentic purpose of event.
- NEO2 create innovative solutions to produce a breakthrough game/sport.

NEO: Graphic Design

Component	Task 1	Task 2	Task 3	Task 4	Weighting %
Timing	Term 1, Week 10	Term 2, Week 10	Term 3, Week 10	Term 4, Week 4	
Nature of Task	<p>Design Project 1 Elements and Principles of Design</p> <p><input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Design Project 2 Logos</p> <p><input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Design Project 3 Design Market</p> <p><input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Design Project 4 Editorial Design</p> <p><input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	
Outcomes	NEO –GD 1, NEO –GD 2 NEO –GD 3, NEO –GD 4	NEO –GD 1, NEO –GD 2 NEO –GD 3, NEO –GD 4	NEO –GD 1, NEO –GD 2 NEO –GD 3, NEO –GD 4	NEO –GD 1, NEO –GD 2 NEO –GD 3, NEO –GD 4	
Task Weighting %	25	25	25	25	100

Course Outcomes

A Student:

- NEO-GD1 develop entrepreneurial skills to identify a problem or opportunity, plan and produce a product for an authentic purpose or event.
- NEO-GD2 create innovative solutions to produce a breakthrough product.
- NEO-GD3 develop knowledge and understanding of a wide range of the Graphic Design Industry terminology, techniques and processes.
- NEO-GD4 apply principles of design in the planning and production of projects

NEO: Jewellery

Component	Task 1	Task 2	Task 3	Weighting %
Timing	Term 1, Week 10	Term 3, Week 2	Term 4, Week 2	
Nature of Task	Art History and Criticism Copper <input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task	Artmaking Clay <input checked="" type="checkbox"/> Home Task <input type="checkbox"/> School Task	Artmaking Lost Wax <input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task	
Outcomes	N0J4, N0J5	N0J1, N0J2	N0J2, N0J4	
Task Weighting %	30	30	40	100

Course Outcomes

A Student:

- N0J1 develops autonomy in selecting and applying jewellery design conventions and procedures to make artworks.
- N0J2 makes jewellery informed by their understanding of the function of and relationships between artist, artwork, world, and audience.
- N0J3 investigates and responds to the world as a source of ideas, concepts, and subject matter for jewellery.
- N0J4 selects appropriate procedures and techniques to make and refine jewellery.
- N0J5 applies their understanding of aspects of practice to interpret jewellery design critically and historically.

NEO: Music Production

Component	Task 1	Task 2	Task 3	Weighting %
Timing	Term 1, Week 11	Term 3, Week 5	Term 4, Week 3	
Nature of Task	<p>Composition: 3 Mini-Projects in Soundtrap or DAW of choice POL Foundation</p> <p><input checked="" type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Composition & Musicology: Original Music Composition – Project Portfolio POL Making/Recording</p> <p><input checked="" type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Composition & Musicology: Original Music Composition – Completed Project PBL Producing</p> <p><input checked="" type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	
Outcomes	NMP1, NEO1	NMP1, NMP2	NMP1, NEO1	
Task Weighting %	30	30	40	100

Course Outcomes

A Student:

- NMP1 compose and plan a creative score/s using the appropriate software, instruments, and vocals to create a completed project that has considered the elements of musical composition notation, listening and the manipulation of musical concepts in differing musical contexts.
- NMP2 develop knowledge and skills related to the terminology and functional aspects of musical production.
- NEO1 develop entrepreneurial skills to identify problem or opportunity, plan and produce a product for an authentic purpose or event.
- NEO2 create innovative solutions to produce a breakthrough product.

NEO: Philosophy 1

Component	Task 1	Task 2	Weighting %
Timing	Term 1, Week 10	Term 2, Week 9	
Nature of Task	<p>Script History of Philosophy</p> <p><input checked="" type="checkbox"/> Home Task <input type="checkbox"/> School Task</p>	<p>Essay Reality</p> <p><input checked="" type="checkbox"/> Home Task <input type="checkbox"/> School Task</p>	
Outcomes	PHIL-1, PHIL-2, PHIL-5	PHIL-1, PHIL-3, PHIL-4	
Task Weighting %	50	50	

Course Outcomes

A Student:

- PHIL-1 composes critical, creative, informative, and discursive texts to express valued, original, and critical ideas.
- PHIL-2 discusses and expresses theoretical ideas from a variety of philosophical perspectives.
- PHIL-3 uses increasingly sophisticated written techniques to express informed philosophical ideas.
- PHIL-4 makes connections between philosophy and the world in which they live.
- PHIL-5 discusses and substantiates both personal insights and the ideas of others.

NEO: Philosophy 2

Component	Task 1	Task 2	Weighting %
Timing	Term 1, Week 10	Term 3, Week 9	
Nature of Task	Visual Representation Political Philosophy <input checked="" type="checkbox"/> Home Task <input type="checkbox"/> School Task	Critical Essay Epistemology <input checked="" type="checkbox"/> Home Task <input type="checkbox"/> School Task	
Outcomes	PHIL-1, PHIL-2, PHIL-5	PHIL-1, PHIL-2, PHIL-5	
Task Weighting %	50	50	

Course Outcomes

A Student:

- PHIL-1 composes critical, creative, informative, and discursive texts to express valued, original, and critical ideas.
- PHIL-2 discusses and expresses theoretical ideas from a variety of philosophical perspectives.
- PHIL-3 uses increasingly sophisticated written techniques to express informed philosophical ideas.
- PHIL-4 makes connections between philosophy and the world in which they live.
- PHIL-5 discusses and substantiates both personal insights and the ideas of others.

NEO: Video Production

Component	Task 1	Task 2	Task 3	Weighting %
Timing	Term 1, Week 9	Term 2, Week 8	Term 3, Week 9	
Nature of Task	<p>Artmaking The Genre Flip <i>Editing</i></p> <p><input checked="" type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Art History and Criticism Moving Visions <i>Cinematography</i></p> <p><input checked="" type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	<p>Artmaking Cinemagic <i>Visual Effects</i></p> <p><input type="checkbox"/> Home Task <input checked="" type="checkbox"/> School Task</p>	
Outcomes	NOVP1, NOVP5	NOVP2, NOVP4	NOVP1, NOVP3	
Task Weighting %	30	30	40	100

Course Outcomes

A Student:

- VP1 Investigates the world as a source of ideas, concepts and subject matter for narrative based digital video production.
- VP2 demonstrates knowledge and skills to make digital video productions informed by their understanding of practice, the conceptual framework, and frames.
- VP3 makes digital video production informed by their understanding of the function of the relationships between the videographer, the video, world, and audience.
- VP4 uses their understanding of the function and relationship between videographer, world, and audience in critical and historical interpretations of digital video productions and films.
- VP5 participates effectively in the digital video production process as a team member in a group or individual project.
- VP6 effectively communicate and work safely as a member of a crew during the digital video production process.

Dulwich High School of Visual Arts & Design

Illness/Misadventure Form

Name: _____ Course: _____ Year _____ Class _____

Name of Assessment Task: _____ *Nature of tasks (please circle) Examination,*
Performance, Assessment Task No _____ *Performance, Practical Task, Speaking Task,*
Task, weighting _____ *Written Tasks, Viewing Assignment, Research*
Date Due _____ *Activity, Portfolio, Field Work.*
Class Teacher _____

To be completed by the student Section A

Outline reasons for this application for Illness/Misadventure and attach relevant documentation. (e.g., medical certificate)

Parent/Carer Signature _____ Student Signature _____

Date: _____ Date: _____

To be completed by the Head Teacher Section B

Head Teacher's name: _____ Faculty _____ Course _____

Receipt date of illness/Misadventure form; _____

Task submitted/completed Yes No Date completed _____
Date of rescheduled task _____

Comments: _____

Resolution accepted HT Signature _____

To be completed by Deputy Principal Section C

Resolution accepted Resolution rejected

Comments _____

Deputy Principal signature _____ Date: _____
